EXPERIENCE

Self Employed, Worldwide — Freelance Developer

2013 - PRESENT

Since 2013 I've been taking freelance contracts for various projects mainly focused on WordPress, Magento, and Shopify.

soulpepper, Vancouver — Lead Developer

2016 - PRESENT

I was hired by soulpepper after a lengthy retainer relationship to manage a handful of internal and external projects. As they have moved towards a focus on digital marketing, I have recently returned to a contract relationship with them.

Sixteen Fifty, Remote Team — Developer

2015 -2016

I supported Sixteen Fifty with numerous legacy WordPress projects over the course of a year including the Hard Rock Lake Tahoe website.

SideStix Ventures Inc, Sechelt — Webmaster

2010 -2012

SideStix is a start-up company based on the Sunshine Coast which I was lucky enough to be a part of in the very initial stages. They allowed me to explore my interest in ecommerce development. This sparked my career path in Web Development.
