Self Employed, Vancouver

2013 - PRESENT

Since 2013 I've been taking freelance contracts for various projects mainly focused on PHP, WordPress, Laravel, and Shopify.

Ryders Eyewear, North Vancouver

2016 - PRESENT

I have worked with Ryders with the maintenance and development of their WooCommerce store. I was fortunate to be able to help build a kanban based agile workflow to assist with project management as well.

Noble Pixels, North Vancouver

2018

I completed a 4 month contract with Noble Pixels which focused on building API-first Laravel applications with Vue.js front-ends.

The Rand Group, Vancouver

2017

I worked at Rand Group developing internal and external WordPress websites, as well as integrating marketing automation software.

Soulpepper, Vancouver

2016 - 2018

I was hired by Soulpepper after a lengthy retainer relationship to manage a handful of internal and external projects. As they moved towards a focus on digital marketing, I returned to a contract relationship with them.
